

MyVideoSoft Crack+ With Full Keygen Download [Latest]

MyVideoSoft is a video collection management application which enables to manage all of your movies on all of your video supports. To add a movie in your MyVideoSoft database, nothing is more simple : You just have to enter a Movie title (or even a single word) and all the datas including posters and trailers are automatically downloaded from Internet. MyVideoSoft includes the Script Editor module which allows you to develop by yourself the connections to the Cinema or DVD Internet sites of your choice, and this among those that are available overall the world. Here are some key features of "MyVideoSoft":

- MyVideoSoft is interfaced with best Cinema databases on Internet, of which cinematographic world [www.imdb.com](http://www.imdb.com) database, as well as encyclopedic Cinema Yo-Video database, which enable you automatically to create your film sheets by downloading. It is enough to click on the title of movies of your choice so that MyVideoSoft automatically integrates them in your video collection.
- MyVideoSoft includes the Script Editor module which allows you to develop by yourself the connections to the Cinema or DVD Internet sites of your choice, and this among those that are available overall the world, with download or display of the trailers.
- Possibility of creating oneself its own interfaces of movie sheets and of diffusing them on Internet (see Graphical Kits in the menu)
- Possibility of creating oneself its own personalized printings and of diffusing them on Internet
- MyVideoSoft enables you to integrate "Multimedia Gallery" into each movie and each actor (or script-writer or director or composer). "Multimedia Gallery" is composed of as many videos, photos, musics, trailers, credits, Internet pages, PC files that you want it. Each Gallery thus created also integrates a true Internet Navigator which allows you, while surfing on Web, to associate the pages which you visit with the sheet of your movie or your actor. This association is done on line without any data entry of your share.
- MyVideoSoft completely manages your video collection whatever the supports used: DVD, DivX, Video CD, LaserDisc or Videotapes of all formats.
- Automatic export of your printings towards Word, pdf, HTML formats.
- Automatic sending of your printings by e-mail.
- Direct and automatic digitalization of pictures and movie covers
